Content	UFC Base Anchor Ring C-Length Cover (Dome) Quick Release Clamp Sealing 'O' Ring Fibre Storage Basket (Optional) Tray Support Frame Anchor Fixing Kit (3) 4 x Hellamass Large 3A Splice Trays Hook and Loop Tray Securing Straps Transportation Tubing Cable Ties Isopropyl Alcohol Wipes Desiccant Installation Guide Marker Kit Red Marker 1 – 25 Green Marker 1 – 25
Cover Type	C
Method of Sealing	Cablelok, Heatshrink
Package Content packed in	kit
PART DESCRIPTION	UFCTB-CXBHG41
Port	L, LM, T, S, B
Port count	1, 1, 2, 10, 16
Product Family	C Length with Hellamass Large Trays
Product Group	UFC Tubed Closure
Qty Trays	4
Splice Capacity	288
Technical Description	<p>The UFC C Length Single Stack closure is available with a Cablelok (Polypropylene) or Heatshrink (Flame Retardant Polypropylene). The base configuration of 28 round ports and 2 oval ports covers a cable diameter range of 4.0 – 29.0mm when using Cablelok mechanical seals and 6.0 – 35.0mm when using heatshrink. The mounting and support system is manufactured from Grade 304 stainless steel and is supplied 4 x Hellamass Large trays giving a maximum of 288 fibre splices. The tubed closure and position of the support system allows for ease of access and traceability of the fibre in to the trays and the basket provides storage space for the fibre loops. The trays are white which makes it easy to see the colour of the fibre elements as they are routed through the fibre support system and in to the trays. The rear of the trays provides storage space for managing excess fibre.</p>
Type of Tray	Hellamas Large
