

EASY

Headlamp helmet bracket / belt clip

PRODUCT DESCRIPTION

Flexible attachment options - This helmet attachment/belt clip gives you multiple options to attach your headlamp based on individual preferences. The bracket is easily attached to your helmet by using the pre-mounted adhesive tape. Once the bracket is in place, the headlamp can be taken on our off with just a click. The bracket also has an integrated belt clip than can be used for various purposes.

SILVA ATTACHMENTS

We have developed a unique range of attachment possibilities for different needs.

With high demands on flexibility and comfort, SILVA headlamps are modular and can easily be shifted between your headband, helmet, jacket, backpack or bicycle handlebar by using the attachments in our range.

As part of the **SILVA Connection System**, our brackets alongside our wide battery range offer a lot of flexibility and enable easy adaption for several activities. With just a few snaps and clicks you can use the same headlamp for different activities.
