

HEADLAMP EXTENSION KIT

ART. NO. 38075

RRP 0000,-

NEW

HEADLAMP EXTENSION KIT WITH CABLE AND CABLE GUIDE

The headlamp extension kit includes an extension cable and a rear cable guide. By connecting the headlamp battery with the extension cable, you can place the battery safely in your pocket or a backpack. By keeping the battery warm in your pocket or backpack, you will increase the battery time.

The cable guide is attached to the back of the headband or helmet and helps keep the headlamp cable in place.

FEATURES

- Silva Connection system
- Simple and flexible attachment to headband or helmet

COMPATIBILITY

- All Silva rechargeable battery packs using the Silva connection system

INCLUDED

3M
sticker
