Cable assembly *WINSTA®* MIDI I coding

The *WINSTA®* MIDI cable assembly with protection against mismating is the pluggable solution for your use in control cabinets, for lighting connections or on PCBs. On PCBs, in control cabinets or for connecting lights – pluggable installation connectors from WAGO allow you to make connections according to various requirements in no time flat.

For greater security in electrical installations, the pluggable installation connector is provided with mechanical protection against mismating. The pluggable installation connector offers touch-proof protection with live components in accordance with protection type IP20. *WINSTA®* MIDI pluggable installation connectors with I coding in blue are especially suitable for easy lighting installation, for instance for the dimming function of DALI lights. *WINSTA®* MIDI with Push-in CAGE CLAMP® spring pressure connection technology is found in a broad range of individual products you can use for quick, easy and maximally flexible installation. This product meets all the mandatory safety requirements of fire class E; as a result it can be used in domains where fire safety is relevant.

Pluggable connections instead of screw connections – cable assemblies from WAGO

The cable assembly is equipped with a plug and a free end. WINSTA® is the pluggable connection system that is ideally tailored to the strict requirements of electrical installation. It offers error-free installation of cables and components, quickly and reliably. Now you can also lower installation costs without compromising quality and safety. The *WINSTA®* MIDI pluggable installation connector with protection type IP20 reduces the need for servicing and prevents unnecessary downtime.
