SWITCH-DISCONNECTOR 1000A, FRAME SIZE 5, 3-POLE FRONT OPERATING LEFT COMPLETE ASSEMBLY WITH DIRECT HANDLE GREY FLAT TERMINAL

Similar to image

General technical details:				
product brand name		SENTRON		
Product designation		Switching device		
Design of the product		3KD Switch Disconnectors		
Size of switch disconnector		5		
Number of poles		3		
Continuous current				
• rated value	Α	1,000		
• at 40 °C / rated value	Α	1,000		
• at 45 °C / rated value	Α	1,000		
• at 50 °C / rated value	Α	1,000		
• at 55 °C / rated value	Α	1,000		
• at 60 °C / rated value	Α	1,000		
• at 65 °C / rated value	Α	1,000		
• at 70 °C / rated value	Α	1,000		
at DC / rated value	Α	1,000		
Operating current				
• at AC-21 A				
• at 400 V / maximum	Α	1,000		

• at 500 V / maximum	Α	1,000
• at 690 V / maximum	Α	1,000
• at AC-22 A		
• at 400 V / at 50/60 Hz / rated value / maximum	Α	1,000
• at 500 V / at 50/60 Hz / rated value / maximum	Α	1,000
• at 690 V / at 50/60 Hz / rated value / maximum	Α	1,000
• at AC-23 A		
• at 400 V / at 50/60 Hz / rated value / maximum	Α	800
• at 500 V / at 50/60 Hz / rated value / maximum	Α	800
• at 690 V / at 50/60 Hz / rated value / maximum	Α	800
• at DC-21 A		
• at 220 V / maximum / note		1000 / 2
• at 440 V / rated value / maximum / note		1000 / 3
Operational voltage		
• at 50/60 Hz / for AC / rated value	V	690
• with 3 current paths in series / with DC / rated value	V	440
Insulation voltage / rated value	V	1,000
Impulse voltage resistance / rated value	kV	12
Overvoltage class		IV
Operating power / at AC-23 A		
• at 400 V / at 50/60 Hz / rated value	kW	400
• at 500 V / at 50/60 Hz / rated value	kW	560
• at 690 V / at 50/60 Hz / rated value	kW	800
l2t value / with closed switch		
• for combination switch + fuse		
• at 400 V / maximum	A²-s	15,400,000
• at 500 V / maximum	A²·s	15,400,000
Let-through current / with closed switch		
• for combination switch + fuse		
• at 400 V / maximum permissible	Α	95,900
• at 500 V / maximum permissible	А	95,900
Short-time current resistance (lcw) / limited to 1 s / rated value	kA	50
Making capacity short-circuit current (lcm) / for switch disconnector / without fuse link / rated value / minimum	kA	105
Conditional short-circuit current / with line-side fuse protection		
• at 500 V / by gG fuse / rated value	kA	100
Active power loss / with conventional rated thermal current / per pole	W	47
Product equipment / interlock		Yes

	²), 2x (95 240 mm²)
Type of connectable conductor cross-sections • for copper conductor / stranded / with lug • according to DIN 46234 • according to DIN 46235 • for copper busbar Number of connected NC contacts / for auxiliary contacts Number of connected NO contacts / for auxiliary contacts Number of connected changeover contacts / for auxiliary contacts Product extension / auxiliary switch Number of NC contacts / for auxiliary contacts Number of NO contacts / for auxiliary contacts Number of NO contacts / for auxiliary contacts Number of NO contacts / for auxiliary contacts Number of changeover contacts / for auxiliary contacts Acceptability for application / switch disconnector Acceptability for application • emergency stop switch • main switch • safety cut-out switch • maintenance/repair switch Design of the operating mechanism Mounting type Mounting type / rail mounting Mounting type / ront mounting with 4-hole attachment No Mounting type / front mounting with central attachment Type from device mounting position any	²), 2x (95 240 mm²)
* for copper conductor / stranded / with lug * according to DIN 46234 * according to DIN 46235 * for copper busbar Number of connected NC contacts / for auxiliary contacts Number of connected NO contacts / for auxiliary contacts Number of connected changeover contacts / for auxiliary contacts Product extension / auxiliary switch Number of NC contacts / for auxiliary contacts Number of NO contacts / for auxiliary contacts Number of NO contacts / for auxiliary contacts Number of changeover contacts / for auxiliary contacts Acceptability for application / switch disconnector Acceptability for application • emergency stop switch • main switch • maintenance/repair switch Pesign of the operating mechanism Mounting type Mounting type / rail mounting Mounting type / front mounting with 4-hole attachment No Mounting type / front mounting with central attachment Type from device mounting position 1 x (120 240 mm 1x (12	²), 2x (95 240 mm²)
according to DIN 46234 according to DIN 46235 for copper busbar Number of connected NC contacts / for auxiliary contacts Number of connected NO contacts / for auxiliary contacts Number of connected changeover contacts / for auxiliary contacts Product extension / auxiliary switch Number of NO contacts / for auxiliary contacts Number of NO contacts / for auxiliary contacts Number of NO contacts / for auxiliary contacts Number of changeover contacts / for auxiliary contacts Number of changeover contacts / for auxiliary contacts Acceptability for application / switch disconnector Acceptability for application emergency stop switch main switch safety cut-out switch maintenance/repair switch maintenance/repair switch Mounting type Mounting type / rail mounting Mounting type / front mounting with 4-hole attachment No Mounting type / front mounting with central attachment No Type from device mounting position	²), 2x (95 240 mm²)
* according to DIN 46235 * for copper busbar * for copper busbar Number of connected NC contacts / for auxiliary contacts Number of connected NO contacts / for auxiliary contacts Number of connected changeover contacts / for auxiliary contacts Product extension / auxiliary switch Yes Number of NC contacts / for auxiliary contacts Number of NO contacts / for auxiliary contacts Number of NO contacts / for auxiliary contacts Number of changeover contacts / for auxiliary contacts Acceptability for application / switch disconnector *Acceptability for application * emergency stop switch * main switch * safety cut-out switch * maintenance/repair switch * maintenance/repair switch * maintenance/repair switch * manual operating mounting Mounting type / front mounting with 4-hole attachment No Mounting type / front mounting with central attachment No Type from device mounting position	²), 2x (95 240 mm ²)
• for copper busbar 2x (60x10 mm²) Number of connected NC contacts / for auxiliary contacts 0 Number of connected NO contacts / for auxiliary contacts 0 Number of connected changeover contacts / for auxiliary contacts 0 Product extension / auxiliary switch Yes Number of NC contacts / for auxiliary contacts 8 Number of NO contacts / for auxiliary contacts 0 Acceptability for application / switch disconnector Yes Acceptability for application No • emergency stop switch Yes • main switch Yes • safety cut-out switch Yes • maintenance/repair switch Yes Design of the operating mechanism manual operating of floor mounting Mounting type / rail mounting No Mounting type / front mounting with 4-hole attachment No Mounting type / front mounting with central attachment No Type from device fixed mounting mounting position any	
Number of connected NC contacts / for auxiliary contacts Number of connected NO contacts / for auxiliary contacts Number of connected changeover contacts / for auxiliary contacts Product extension / auxiliary switch Number of NC contacts / for auxiliary contacts Number of NO contacts / for auxiliary contacts Number of changeover contacts / for auxiliary contacts Acceptability for application / switch disconnector Acceptability for application • emergency stop switch • main switch • safety cut-out switch • maintenance/repair switch Design of the operating mechanism Mounting type Mounting type / rail mounting Mounting type / front mounting with 4-hole attachment No Mounting type / front mounting with central attachment Type from device mounting position	²), 2x (95 240 mm ²)
Number of connected NO contacts / for auxiliary contacts Number of connected changeover contacts / for auxiliary contacts Product extension / auxiliary switch Number of NC contacts / for auxiliary contacts Number of NO contacts / for auxiliary contacts Number of changeover contacts / for auxiliary contacts O Acceptability for application / switch disconnector **Acceptability for application / switch disconnector **emergency stop switch **emain switch **safety cut-out switch **maintenance/repair switch Design of the operating mechanism Mounting type Mounting type / front mounting Mounting type / front mounting with 4-hole attachment No Mounting type / front mounting with central attachment Type from device mounting position O O O O O O O O O O O O O	
Number of connected changeover contacts / for auxiliary contacts Product extension / auxiliary switch Number of NC contacts / for auxiliary contacts Number of NO contacts / for auxiliary contacts Number of changeover contacts / for auxiliary contacts O Acceptability for application / switch disconnector Acceptability for application • emergency stop switch • main switch • safety cut-out switch • maintenance/repair switch Design of the operating mechanism Mounting type Mounting type / front mounting Mounting type / front mounting with 4-hole attachment No Mounting type / front mounting with central attachment No Type from device mounting position	
contacts Product extension / auxiliary switch Number of NC contacts / for auxiliary contacts Number of NO contacts / for auxiliary contacts Number of changeover contacts / for auxiliary contacts Acceptability for application / switch disconnector Acceptability for application • emergency stop switch • main switch • safety cut-out switch • maintenance/repair switch Design of the operating mechanism Mounting type Mounting type / front mounting with 4-hole attachment Mounting type / front mounting with central attachment Type from device mounting position Yes No Yes No No fixed mounting mounting position	
Number of NC contacts / for auxiliary contacts Number of NO contacts / for auxiliary contacts Number of changeover contacts / for auxiliary contacts O Acceptability for application / switch disconnector **Pes** Acceptability for application • emergency stop switch • main switch • safety cut-out switch • maintenance/repair switch Design of the operating mechanism Mounting type Mounting type / rail mounting Mounting type / front mounting with 4-hole attachment Mounting type / front mounting with central attachment No Type from device mounting position 8 **A **A **A **B **A **B **A **B **A **B **A **B **B **A **B **A **B **B	
Number of NO contacts / for auxiliary contacts Number of changeover contacts / for auxiliary contacts Acceptability for application / switch disconnector Personance of the operating mechanism Mounting type Mounting type / front mounting with 4-hole attachment Mounting type / front mounting with central attachment No No Resonance / repair switch Resonance / repair switch No Mounting type / front mounting with central attachment No Type from device mounting position	
Number of changeover contacts / for auxiliary contacts Acceptability for application / switch disconnector Acceptability for application • emergency stop switch • main switch • safety cut-out switch • maintenance/repair switch Design of the operating mechanism Mounting type Mounting type / front mounting Mounting type / front mounting with 4-hole attachment No Type from device mounting position O Yes No Yes Yes floor mounting No No No Type from device fixed mounting any	
Acceptability for application / switch disconnector Acceptability for application • emergency stop switch • main switch • safety cut-out switch • maintenance/repair switch Design of the operating mechanism Mounting type Mounting type / front mounting Mounting type / front mounting with 4-hole attachment Mounting type / front mounting with central attachment Type from device mounting position Yes No Yes Yes Page 1 No Yes Yes Page 2 Yes No Yes Yes Yes No Yes Yes Yes Yes Yes Yes Yes Ye	
Acceptability for application • emergency stop switch • main switch • safety cut-out switch • maintenance/repair switch Design of the operating mechanism Mounting type Mounting type / rail mounting Mounting type / front mounting with 4-hole attachment Mounting type / front mounting with central attachment Type from device mounting position No No In the operation of the operating mechanism Mounting type / rail mounting No No Type front mounting with central attachment No Type from device mounting position any	
• emergency stop switch • main switch • safety cut-out switch • maintenance/repair switch Design of the operating mechanism Mounting type Mounting type / rail mounting Mounting type / front mounting with 4-hole attachment No Mounting type / front mounting with central attachment No Type from device mounting position No No No fixed mounting mounting position	
 main switch safety cut-out switch maintenance/repair switch Design of the operating mechanism Mounting type Mounting type / rail mounting Mounting type / front mounting with 4-hole attachment Mounting type / front mounting with central attachment No Type from device mounting position 	
* safety cut-out switch * maintenance/repair switch Design of the operating mechanism Mounting type Mounting type / rail mounting Mounting type / front mounting with 4-hole attachment No Mounting type / front mounting with central attachment No Type from device mounting position Yes Yes Yes Yes No Mounting type floor mounting No No fixed mounting any	
maintenance/repair switch Design of the operating mechanism Mounting type Mounting type / rail mounting Mounting type / front mounting with 4-hole attachment No Mounting type / front mounting with central attachment No Type from device mounting position Yes Manual operating of floor mounting of floor moun	
Design of the operating mechanism Mounting type Mounting type / rail mounting Mounting type / front mounting with 4-hole attachment No Mounting type / front mounting with central attachment No Type from device mounting position manual operating reflection of floor mounting reflection floor	
Mounting type / rail mounting Mounting type / rail mounting No Mounting type / front mounting with 4-hole attachment No Mounting type / front mounting with central attachment No Type from device fixed mounting mounting position any	
Mounting type / rail mounting No Mounting type / front mounting with 4-hole attachment No Mounting type / front mounting with central attachment No Type from device fixed mounting mounting position any	nechanism
Mounting type / front mounting with 4-hole attachment No Mounting type / front mounting with central attachment No Type from device fixed mounting mounting position any	
Mounting type / front mounting with central attachment No Type from device fixed mounting mounting position any	
Type from device fixed mounting mounting position any	
mounting position any	
Position / of switch operating mechanism at the left end	
Design of handle direct handle, grey	
Width mm 360	
Height mm 310	
Depth mm 212.5	
Protection class IP IP00	
• on the front IP00	
• with closed switch / with cover or cable lug cover IP20	
Ambient temperature	
• during operating °C -25 +70	
• during storage °C -50 +80	
Degree of pollution 3	

Mechanical operating cycles as operating time / typical		6,000
Electrical endurance (switching cycles)		
• at AC-23 A / at 690 V / at 50/60 Hz		500
• at DC-23 A		
• at 220 V		500
• at 440 V		500
Design of display		
 for switch position indicator manual operation 		ON-OFF-TEST
Net weight	g	16,700
Reference code / according to DIN EN 61346-2		Q
Item designation / according to DIN EN 81346-2		Q

Certificates/approvals:

General Product Approval **Declaration of Conformity**
