

# Door holder magnet **Salwico GPT-AG**

Part no.:    Magnet GPT    7102  
                  Armature AG    7107

System: All Salwico fire alarms

## Description

The magnetic door holder consists of two parts:

- GPT, door holder magnet, mounted on the wall.
- AG, armature, mounted on the door.

When the power to the magnet is cut, the door is released and a door closer may close the door.

The GPT magnet is equipped with a door release button for local door release.

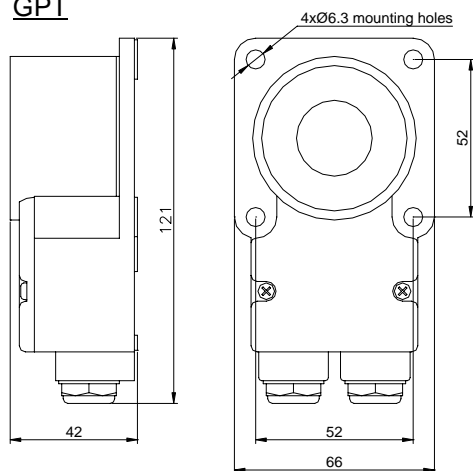

## Data

Nominal voltage	24 VDC
Working voltage	See <i>Traction power</i> below
Holding power	650N
Working current	40 mA at 24 VDC
Power consumption	1W
Cable dimension*	Ø 7-11 mm
Cable terminals	1.5mm <sup>2</sup>
Colour	Grey
Weight, GPT+AG	~700 g

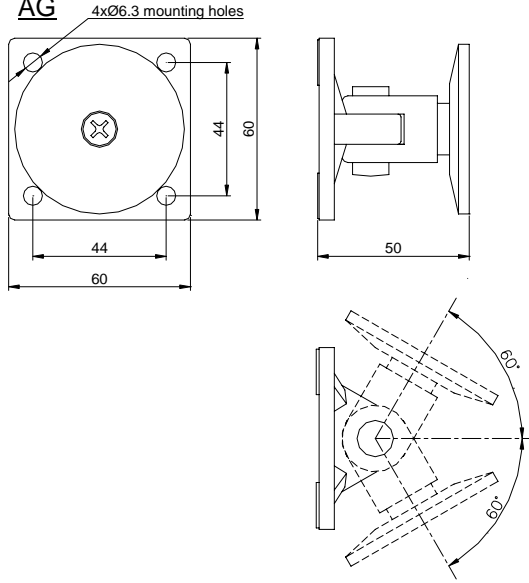

\*With the extension gland, part no. 7106, the cable dimension will be extended to max Ø 15 mm.

## Dimensions (mm)

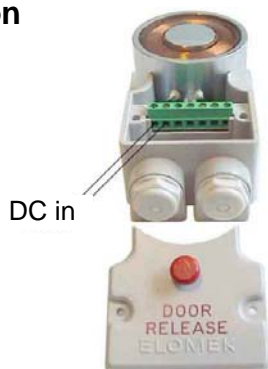

**GPT**

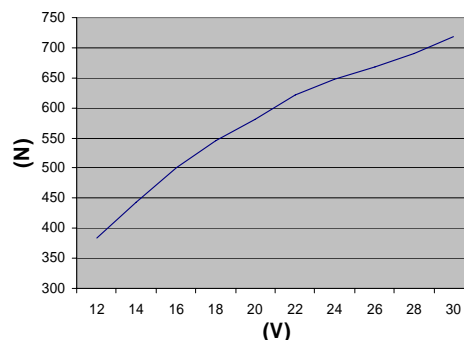

**AG**
